

EVENT MANAGEMENT SYSTEM

EMS_MODIFY

The screenshot displays the 'Modify Events' web application. On the left is a vertical sidebar with navigation buttons: Home (house icon), All Events (calendar icon), My Events (calendar with red dot), Previous (curved arrow), New Event (calendar with plus), Modify (pencil), Reporting (bar chart), User Panel (two people), and Alarm Panel (alarm clock). The main content area has an orange header bar with the 'Event Management System' logo, a user profile icon, 'User Name: Husain', and 'User Id: 1'. Below the header, the 'Event Id' is set to '1' with a 'Find' button. The event details include: 'Date: Apr 6, 2015' (with a YYYY-MM-DD format hint), 'Time: 11:40:12 PM' (with a clock icon), 'Title: Party' (with a laptop icon), and 'Color: Red' (with a color wheel icon). A 'Description' field contains the text 'Party tonight with my friends..'. At the bottom are five buttons: 'Reset' (circular arrow), 'Update' (floppy disk), 'Delete' (trash can), 'Exit' (red X), and 'Logout' (power button). A calendar icon is also visible in the center of the form.

- In Modify Panel, user can update an event details as well as can delete an event by Event Id
- Fields will be set to null by clicking Reset button.
- User can exit easily by clicking on exit button.
- User can Logout easily by clicking on logout button.
